BUILD SUMMIT **25**

Building Consensus and Bridging Perspectives in ILD

24th-25th
MAY 2025

9:00 am
onwards

Vivanta by Taj,
Marine Drive,
Ernakulam, Kochi

Dear Doctor,

Greetings from Kochi!

Over the past year, the field of **Interstitial lung diseases (ILDs)** has continued to evolve, demanding innovative approaches to diagnosis, treatment, and patient care. With **BUILD-24**, we set a new benchmark in ILD management, creating a platform for knowledge-sharing, collaboration, and transformative change. It was truly one of its kind, and we are proud to have built a legacy of staying at the forefront of ILD advancements, always striving for more.

As a continuation of this vision, we launched the **Pan India Multidisciplinary Meeting (MDM)** – a program that upholds **international standards** and provides **unparalleled treatment solutions** for Indian clinicians. With the expertise of the best minds in the field, MDM has been running successfully for over a year, fostering deeper clinical insights and shaping the future of ILD care.

Now, we take this commitment forward with **BUILD Summit 2025: Bridging Innovation and Excellence in ILD Care**. More than just an event, this summit is a movement towards redefining ILD treatment in India and beyond. Bringing together leading national and international experts, pioneering researchers, and dedicated clinicians, BUILD Summit 2025 is designed to foster collaboration, inspire groundbreaking research, and equip healthcare professionals with cutting-edge insights.

Over two dynamic days, attendees will engage in **keynote sessions, multidisciplinary case discussions, and interactive workshops**, gaining practical expertise and real-world solutions for ILD management. With a special focus on **multidisciplinary decision-making (MDM)**, the summit will address the latest advancements in diagnostics, therapeutic strategies, and personalized patient care.

Whether you are an experienced pulmonologist, an emerging researcher, or a healthcare professional eager to expand your expertise, BUILD Summit 2025 offers an unparalleled opportunity to **connect, learn, and lead the future of ILD care**.

Join us as we push the boundaries of innovation and **shape the next chapter in ILD treatment**.

We look forward for your esteemed presence for this summit.

Sincerely,
